Erdington Care Home

Division: Soft Landscapes

Client Wildgoose Construction Ltd

Date: 02/2015

Products:

Stock: Ornamental shrubs, climbers & formal hedging stock, 1,500 mixed bulbs, 2,000m2 of quality grade turf, 250m2 artificial grass.

The Project

Erdington Road Care Home is a £7.52m new build 70 room residential care facility built for Restful Homes Group of Surrey.

Initial drawings by Peter Jackson Development and subsequently finalised by our own in-house team required the installation of formal gardens, pergolas, ornamental seating and a rooftop bowling green alongside a putting green.

Completion of the soft landscaping was followed by a 12-month maintenance contract.

The Solution

Initial works consisted of the importation of 350m3 of BS3882 topsoil. This was undertaken to work in liaison with the Main Contractor and involved discussions and detailed planning with ground workers, fencing contractors and scaffolding contractors to ensure minimal disruption or damage to each trades relevant works.

Extra care and attention was required as the team had to ensure that all newly installed hard surfaces were kept clean and tidy at all times.

The final landscaping consisted of the supply and installation of 2,500 3L to 10L ornamental shrubs, climbers & formal hedging stock, 50 Extra Heavy trees, 1,500 mixed bulbs, 2,000m2 of quality grade turf, 7 double-bay softwood timber pergolas, 15 ornamental timber seats, 250m2 artificial grass including a bowling green and putting green situated on a roof garden.

The Benefits

A pro-active partnership style relationship between NT Killingely, Wildgoose Construction and Perter Jackson Development ensured that the project was delivered on schedule, on budget and to the satisfaction of the client and end user.

NT Kilingley's ability to transpose initial drawings into 3D construction plans provided further confidence that quality standards and project timelines were fully adhered too.

The quality of specified materials and construction will ensure that the residents of Erdington will continue to enjoy the garden and its facilities for many years to come.
