Grounds Maintenance
Solutions

Established for over forty years, NT Killingley offers an unrivaled commercial grounds maintenance service.

Grounds Maintenance Services

With over 40 years' experience in grounds maintenance, our teams use only the latest and most efficient equipment to ensure that the highest standards of work are always achieved.

Specialising in complete grounds maintenance, we always pay close attention to the environmental impact of our work. Actively supporting biodiversity and nature management schemes we aim to improve the environment for both wildlife and local communities.

For grounds enhancement, we offer a tailored plan of flower rotations, planting, mulching and seasonal clean-up along with tree maintenance, pest and disease control.

We also offer a winter maintenance service that provides full-scale snow and ice clearance with a road and path gritting programme designed to meet your critical needs.

As well as holding current ISO 9001, 14001, 18001, CHAS certification and Constructionline level 3 accreditation, all our operatives have enhanced DBS checks for peace of mind.

Our Grounds Maintenance Services include:

- Sports Field Mowing
- Sports Pitch Installation and Marking
- Ornamental and Formal Lawn Mowing
- Strimming
- Weeding
- Winter and Summer Bedding Plants
- Bulb Planting
- Mulching
- Winter Gritting and Snow Clearance
- Pruning
- Jet Washing
- Tree Felling and Dismantling
- Full Tree Surveys
- Grass Maintenance
- Fertilising
- Invasive Species Mitigation
- All types of Herbicide Application
- Forestry Establishment and Maintenance
- Play installations
- Eco Schools and Environmental Management

Quality, Reliability & Continuity of Service

Our aim is to maximise the potential of your site, to achieve this we work with you to schedule a full programme of works tailored to your needs so that you always know when we will be on site and what we are scheduled to do.

Our dedicated management team inspect sites on a regular basis to ensure the work has been completed to the high standards that you expect.

Our Promise to You:

- Planned Programme of Works
- Given Day Service
- Nominated Personnel for Continuity of Service
- Dedicated Site Manager
- Flexibility for your Operational Requirements
- Enhanced DBS Cleared Personnel

Grounds Maintenance for Education

Grounds Maintenance for Education sites is a particular speciality for NT Killingley, currently looking after over 50 schools and educational establishments across the region.

We have the experience and flexibility to operate across the whole spectrum of educational facilities including SEN schools, and we specialise in working with Academy Trusts and can offer unique strategies to reduce maintenance costs over multiple sites.

Areas of Expertise:

- Primary Schools/Secondary/SEN/Senior Schools
- Public Schools/Colleges and Universities
- Sports Pitch Maintenance and Marking
- Eco Schools Advisory
- Pitch Seeding
- Weed Control, Strimming, Mulching and Pruning
- Artificial Pitches
- Winter and Summer Bedding Plants

Commercial Maintenance Services

NT Killingley currently look after a large number of commercial sites. We pride ourselves on the tailor made contracts that we provide, working seamlessly with your business to ensure the highest levels of quality, health & safety and value for money.

We get to know how your business works so that we can deliver work programmes that fit around your business needs. This can include low visibility site presence and early morning visits to ensure minimal disruption to your operations.

With ISO 9001, 14001 & 18001 accreditation our robust quality management system provides auditable monitoring of contracts and timely client liaison.

Areas of Expertise:

- Logistic Hubs
- Retail Parks
- Leisure Facilities
- Business Parks
- Industrial Units
- Public Realm
- Local Authority
- Parish Councils
- Blue Light Facilities
- Utilities Service Providers including Waste Transfer Stations, Biomass Facilities, Power Stations & Water Authority Sites

Sports Pitch Construction and Maintenance

Complex projects are a particular speciality as the Company has a large skilled in-house workforce with experience in natural pitches, artificial sports pitches, play areas, MUGAs, bowling greens, drainage and maintenance work.

We also carry specialist GPS 3D controlled equipment for surface preparation. This is very useful for sports pitch work as we can produce a full 3D model for cut and fill balance, appropriate drainage and a zero import/export of materials.

Areas of Expertise:

- Specialist Line Marking for Grass, Artificial Surfaces and Tarmac
- Pitch Consultancy
- Surface Preparation including SISIS Quadraplay System
- Verti-Draining
- Top-Dressing
- Aeriating
- Moss and Weed Treatment
- Seasonal Fertilisation
- Overseeding
- Drainage
- Pitch Reinstatement

Site Clearance and Specialist Tree Felling

A fully comprehensive arboricultural service which includes the ability to undertake tree surveys and provide associated reports and support.

All our arboricultural operatives are highly trained, fully qualified and vastly experienced. Each operative holds the relevant CSCS accreditation required to undertake a variety of tasks. Detailed Method and Risk Assessments are completed well in advance of any works and a dedicated Project Manager is tasked to ensure that they are adhered to at all times.

With a fully experienced and multi-discipline team our capabilities include:

- Tree Felling
- Scrub Removal
- Forestry Mulching
- Stump Removal and Grinding
- Crown Lifting
- Crown Reduction
- Crown Thinning
- Pollarding
- Coppicing
- Dead Wooding

Our specialist services include:

- Large Scale Clearance for Development Sites
- Waterways - Using Pontoons, Boats and Specialist Removal Equipment
- Flood Alleviation Schemes
- Environment Agency Emergency Response

New Woodland & Forestry Maintenance

The backbone of the company since its inception, NT Killingley have supplied and successfully installed millions of native broadleaved and coniferous trees and shrubs over the years on a wide range of projects.

Our site operatives are extremely experienced in handling and planting forestry whips, we are able to install vast areas of woodlands at a high rate of production as well as fitting an array of tree and shrub protection.

Areas of Expertise:

- Arboricultural Services
- Forestry Maintenance
- Forestry Planning
- Weed Control, Mulching and Pruning
- Tree Felling and Specialist Clearance

Winter Maintenance

We provide a complete winter maintenance service that includes snow ploughing, salting, gritting and maintaining cleared surfaces.

Clearing footpaths, car parks, private roads, school grounds and other areas is a particular speciality as we are equipped with snow ploughs, pushers, front-end loaders, tractors, skid steers and a wide variety of salt spreaders.

With a 24/7 coverage, we can assist you in preventive gritting and reactive snow clearance from your site to ensure that you remain operational. We operate in Chesterfield, Sheffield, Derbyshire, South Yorkshire, Nottinghamshire and the East Midlands.

Our fully comprehensive service is very cost effective and includes daily monitoring of long-range weather forecasts via our agreement with the Met Office to ensure coverage is provided at the right time.

Areas of Expertise:

- Footpath Gritting & Snow Clearance
- Retail Park Gritting and Snow Clearance
- School Ground Gritting & Snow Clearance
- Hospital Ground Gritting and Snow Clearance
- Road Salt Gritting
- 24/7 Emergency Response
